

AIRIS - II

MRI Permanent Magnet

Seal of TRUST

The natural choice for Refurbished Imaging Equipments

AIRIS-II from CURA assures total functionality on installation and commissioning. All MRI systems come with the 'Seal of TRUST' assurance for capacity and capability on each and every component of the equipment. The quality check is done at the state-of-the-art factory under strict quality controlled environment. In simple terms, any equipment that comes with the 'Seal of TRUST' is as good as new.

With an impeccable track record of installing over 325 refurbished / Pre-owned equipments in recent years, and several repeat customers in the last decade, CURA today is clearly the undoubted market leader and preferred organization when it comes to quality and service. The QC process is certified under the ISO 13485:2003 and ISO 9001:2008 quality standards, with the result, all 'Seal of TRUST' equipments function with very minimal intervention. This also minimizes the need for frequent replacement of spares even after warranty. Besides, the measurable advantages that come with any 'Seal of TRUST' equipment are increase in productivity, efficiency and return on investment.
